

## The New Policies of The Mutual Life Insurance Co. Of New York

Have been carefully drawn so as to avoid as far as possible the use of unnecessary technical terms. The agreements and privileges are clearly and precisely stated, and the contract may be easily understood by its possessor.

They are the best of life insurance contracts and are issued by the BEST of all the companies in the world.

### LIMITED PAYMENT LIFE POLICY.

By the terms of this contract the amount of the insurance is payable upon the death of the insured, and the premiums are payable during a limited number of years—twenty, fifteen or ten years.

The Limited Payment Life Policy is in many respects and for a large class of insurers a most desirable contract, providing as it does that the premiums shall all be paid in the early and productive years of life, thus the policy becomes fully paid up for the whole amount in a fixed number of years. Dividends are payable annually, or at the end of 5, 10, 15 or 20 years.

### HOW MUCH WILL IT COST?

Between the ages of 25 and 31 years, inclusive, SIX TO SEVEN CENTS A DAY will be the "first cost" of \$1000 good life insurance.

Between the ages of 32 and 52 years, SEVEN TO FIFTEEN CENTS A DAY.

Between the ages of 53 and 65 years, SIXTEEN TO TWENTY-NINE CENTS A DAY.

Is there any healthy man or woman in America at work for wages who can not afford this "first cost" of a good \$1000 policy in the best and strongest company on earth?

A little self-denial in small things—pleasant things, perhaps, but unnecessary things—will pay the bill easily.

Different forms of policy cost various prices.

OUR TWENTY-YEAR DISTRIBUTION POLICY on continuous life and limited payment plans affords the maximum of security at the minimum of cost.

OUR GUARANTEED INCOME POLICY provides a guaranteed income, secure investment, and absolute protection.

OUR ENDOWMENT POLICY provides a certain guaranteed sum, payable with profits at a fixed time.

OUR 4 AND 5 PER CENT. BONDS furnish the best and most effective forms of indemnity and fixed annual income to survivors.

OUR CONTINUOUS INSTALLMENT POLICY so adjusts the payment of the amount insured as to create a fixed income during the life of the beneficiary.

OUR ANNUITY POLICIES offer an excellent opportunity for persons to obtain a high rate of interest on their capital for the remainder of life, an income safe beyond mishap. This form of investment is particularly recommended to those who desire to make provision for declining years, and to be free from business cares.

We have prices to fit all known wants. All we want to know is what you want. If you do not know, tell us enough of your condition and surroundings and we can suggest the policy best suited to your purpose.

Rates and guarantees cheerfully furnished on application.

## FISHER'S VIEWS OF THE DISASTER

WILL E. FISHER IN A COMMUNICATION TO THE STAR THINKS CALIFORNIA WILL ASSIST.

The following communication was received this morning from Will E. Fisher in regard to the San Francisco disaster:

EDITOR STAR: If the damage to the real estate in San Francisco—in the vicinity of the original water line—is as great as opinion believes it to be as from reports thus far received by cable I have the strong belief that San Francisco will again flourish.

San Francisco is like Phoenix. Its many deplorable happenings in the past namely the entire burning up of the same on two occasions, its serious Kearny riots, political upturning, and so forth, naturally injured it for a time, but it recovered and the previous rapid strides, its immense wealth and its geographical position assures it a firm hereafter.

You ask me my prophecy of the future results; of course it is only conjecture. I am of the opinion the legislature of California will immediately be called into an extra session by the governor, effort will be made to immediately authorize the bonding of the state to enable the obtaining of an amount for the construction of new docks—for as you know the docks are owned by the state.

I believe a commission will be appointed by the state for the purpose of adjusting and purchasing the properties inundated from the various property holders and then the re-establishing of the docking necessities will be at the line of the original water front and that Congress will very probably take appropriate action to aid in the reconstruction of the harbor. Capital will not quickly build upon the submerged sites—even in the event of so doing I doubt if merchants would feel like occupying premises in doubt.

The reported collapse of the new city hall will not be a surprise to old residents when they recall the history appertaining to its construction. I remember at one time in a certain section of that building experts found walls that should have been solid masonry, filled with trash from construction, evidently done long before the additional section was started for it was built in sections if you remember from time to time awaiting appropriations.

San Francisco's wonderful progress is only called to a temporary halt. Frisco cannot remain dormant, the great productive state of California is behind it—its inland harbor second to none in the world will assure it. Its wholesome generous people who each and all have known trials, tribulations, and prosperity in the past will come together as brothers as Franciscans and all California will assist in the re-establishing of its former position.

WILL E. FISHER.

Honolulu, April 19, 1906.

## HONOLULU PEOPLE IN SAN FRANCISCO

The relationship between Honolulu and San Francisco could not be closer hardly if this city was a part of San Francisco. Nearly every individual in town has business relations in San Francisco and those who have not as well as those who have, have relatives or vast numbers of friends. It is hard to find a white person in the city who is not in keen suspense pending the getting of cable connections with the city of the Golden Gate.

For years the people of Honolulu have gone to San Francisco on their vacations, they have thought of going to that city much as the people in the country in the states think of "going down to the city." All the people here have at least passed through San Francisco and they cannot realize that the majestic skyscrapers that greeted the eye as they slowly passed through the gate and neared the city after a sea voyage of six days, are a thing of the past. That where they stood is only to be seen the charred ruins and blackened remains of what once was the city's pride.

Among the many, here are a few: Captain Friele of the S. S. China has a invalid wife who resides on the top floor of the Palace Hotel. If the fire was at all sudden it is quite likely that she was not able to get out. The mother and aunt of E. Buffandeau, chief clerk in the County Clerk's office, had been attending to her needs in turn. Mr. Buffandeau is naturally very much alarmed for their safety. He was not certain whether his mother or aunt was in the Palace at the time of the disaster.

James Dougherty with Wichman & Co. has a father and mother who also live on the top floor of the Palace Hotel. This was probably the most dangerous locality in town. The Wichman family recently went to San Francisco to accompany the remains of Mrs. Wichman. They were to go to Oakland but possibly may have been in the city yesterday morning. Their friends here in town are alarmed for their safety.

Clinton J. Hutchins left on the Alameda this morning for San Francisco. He has a mother and sister there. His wife's family also resided in that city. C. J. Falk, who is connected with the business of Mr. Hutchins, has a sister up there.

H. B. Mariner, superintendent of the

## Thousands of Women ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that it Really Does Make Sick Women Well.

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines and treatment for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished such widespread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructive ever discovered to act directly upon the female system, positively curing disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), weakness, displacements, inflammation, ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Any way write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.

Insurance department of the Hawaiian Trust Company, has a brother, two sisters and a mother in San Francisco. His wife's relatives are also there.

The mother and sister, Mrs. Kelly Brown, of Charles Frazier, the advertising man, are in San Francisco at some hotel. They recently departed from this city.

C. G. Bockus' wife and child left recently for Oakland. Mr. Bockus is secretary and treasurer of the Bulletin Publishing Company.

J. J. Egan, the real estate man, has a mother, father and wife in San Francisco.

A. W. Meyer, secretary of Chamber's Drug Co., has a mother, father, sister and brother all living in San Francisco. Chamber's Drug Co. had recently placed sixteen orders for drugs from different houses in San Francisco and twelve of the houses communicated with were in the section of the city said to have burned.

County Attorney Douthitt has a father, mother and brother in the unfortunate city.

Territorial Auditor Fisher's family is in San Francisco.

A number of business men in town have stocks and unrecorded bonds in San Francisco banks for safe keeping. These are probably lost.

The wife of Judge George D. Gear is in San Francisco.

Col. J. W. Jones has a mother and sister there.

The father of J. M. and Sidney Levy is in business in what is supposed to be the stricken part of the city.

Mrs. Charles L. Rhodes has a son and a sister residing in San Francisco.

F. L. Waldron is in San Francisco. Joe Cohen is believed to be in the East.

## VALUE OF CASH IN PIANO BUYING. . . .

We do not sell pianos on the instalment plan. We make up for this by allowing a tremendous discount for cash. We sell the celebrated SEILER pianos for \$225 and \$250 cash, the ordinary price of these fine instruments being \$325. You will really see that it pays you to pay cash for a piano when dealing with us.

These pianos are beautifully inlaid with choice woods. They possess matchless tone and perfect action and are well built throughout.

The SEILER is a German piano, and is made in the home of fine pianos. No greater musicians have been produced by any other country in the world than those fostered by Germany and no other land has achieved such a scientific triumph in the construction of pianos.
